- English (advanced)

// FURTHER INFORMATION

I love Star Wars, Pixar and Disney movies, have a deep passion for technology and everything that's digital. I would describe myself as an advocate of the sharing economy and a part-time digital nomad.

My believe is that design methods have the ability to solve some of the biggest challenges we face in life.

My awesome team at thangs and I are currently working on an app for sharing everyday objects e.g. a drill with your friends and family: thangsapp.com.
